

# PRIDEFEST 2019 ELECTRICITY REQUEST

**COST - If ordered by May 15, 2019**

***After May 15, all prices go up \$50. If power is ordered onsite during set up, prices increase \$100.***

**20 AMP: each 110v, FIRST 20 amp service: \$250;**

**each subsequent 20 amp service: \$150**

**30AMP: each 110v, 30 amp service: \$350**

**50 AMP: each 110/208v, 50 amp service: \$500**

*Electricity is available upon request at select exhibitor/vendor booth spaces. The fees include power for both event days. There is no overnight power available. Complete information MUST be provided for power to be provided during festival hours.*

Denver PrideFest understands that a key to your success is having uninterrupted reliable power when you need it. We will use your specific volt and watt information to tailor an electrical service just for your needs. It is important that this information be all inclusive of your equipment so we can create appropriate electrical service.

**Name:** \_\_\_\_\_

**Business:** \_\_\_\_\_

**Phone:** \_\_\_\_\_

**Space #** \_\_\_\_\_

We will use the following equipment. **YOU WILL BE CHARGED FOR ANY ADDITIONAL POWER BEING USED ON SITE.**

Quantity: \_\_\_\_\_

**Equipment Description** (what you will be plugging in)

**IF YOU HAVE ANYTHING OTHER THAN A STANDARD HOUSEHOLD (EDISON) PLUG, WE NEED TO KNOW WHAT IT IS.**

## **WHY UNDERSIZED WIRE AFFECTS SUSTAINED POWER PERFORMANCE:**

The biggest danger in sustaining power over undersized wire is the heat buildup. It is a shock and fire hazard to run undersized wire to any load. The wire will start to break down potentially exposing the conductor and in some cases melting or catching on fire. It is good practice to always use **AT LEAST 12/3** heavy duty cable and keep your length to a maximum of 50 feet.

## **BASIC REQUIREMENTS FOR VENDORS:**

The electrical supplier is required to provide power discussed in the advance process within 50 feet for your booth. It is the vendor's responsibility to provide extension cords from equipment to power source. The electrical supplier for the Festival will provide power distribution units for you to plug into within 50' of your booth. We recommend that you bring a 50' heavy duty extension cord for each electrical circuit that you purchase. Also, be sure to bring any power strips or short extension cords for **INSIDE** your booth. The Festival and the electrical service provider will **NOT** loan any cables for any purpose. **NO EXCEPTIONS.**

No other form of generator or electrical service other than that provided by the Festival is permitted. Please provide a minimum of 50' extension cords: all cables must be grounded and of a gauge heavy enough to accommodate the amperage of the appliances you intend to use. **PLEASE BE ACCURATE WHEN ORDERING ELECTRICITY.** You must list ALL appliances you intend to use. Any appliances/usage not listed on this form will **NOT** be supported by the Festival and you will be liable for any damages, including lost revenue, incurred by misuse at your booth.

**Return Completed form to Carol Hiller at [caroleyii@aol.com](mailto:caroleyii@aol.com) by May 15, 2019.**
